CERTIFICATE OF CLEARANCE

PINE CASTLE GUNNERY RANGE

140ct53

All lands contained in and immediately surrounding the original 768-acre Restricted Area of the Pine Castle Gunnery Range located 7 miles east of Pine Castle, Florida, have been given careful visual inspection and new boundaries outlining contaminated areas have been established (see attached sketch and map).

Lands contained in the old Restricted Area which are outside the new boundaries were found to be clear of all dangerous and/or explosive materials reasonably possible to detect, and are recommended to any use for which the lands are suited.

Lands contained within the new Restricted Area boundaries were found to be contaminated by concentrated use of high explosive missiles and cannot be given unrestricted use. These lands are recommended to above-surface uses only.
